Dear Parent,

Congratulations! You hold in your hands an exceptional educational tool that will give your child a head start in the coming school year.

Inside this book, you'll find 100 practice pages that will help your child review and learn reading and writing skills, grammar, place value, addition and subtraction, and so much more! *Weekly Reader: Summer Express* is divided into 10 weeks, with two practice pages for each day of the week, Monday through Friday. However, feel free to use the pages in any order that your child would like. Here are other features you'll find inside:

- ★ A weekly incentive chart and certificate to motivate and reward your child for his or her efforts.
- ★ A sheet of colorful stickers to use as weekly rewards.
- ★ Ideas for fun, skill-building activities you can do with your child any time.
- ★ Suggestions for creative learning activities that you can do with your child each week.
- ★ A certificate of completion to celebrate your child's accomplishments.

We hope you and your child will have a lot of fun as you work together to complete this workbook.

Enjoy!

The Editors

Tips for Using This Book

1. Pick a good time for your child to work on the activities. You may want to do it around mid-morning after play, or early afternoon when your child is not too tired.

2. Make sure your child has all the supplies he or she needs, such as pencils and an eraser. Designate a special place for your child to work.

3. Celebrate your child's accomplishments by letting him or her affix stickers to the incentive chart after completing the activities each day. Reward your child's efforts with a bonus sticker at the end of the week as well.

4. Encourage your child to complete the worksheets, but don't force the issue. While you may want to ensure that your child succeeds, it's also important that he or she maintains a positive and relaxed attitude toward school and learning.

5. After you've given your child a few minutes to look over the activity pages he or she will be working on, ask your child to tell you his or her plan of action: "Tell me about what we're doing on these pages." Hearing the explanation aloud can provide you with insights into your child's thinking processes. Can he or she complete the work independently? With guidance? If your child needs support, try offering a choice about which family member might help. Giving your child a choice can help boost confidence and help him or her feel more ownership of the work to be done.

6. When your child has finished the workbook, present him or her with the certificate of completion on page 143. Feel free to frame or laminate the certificate and display it on the wall for everyone to see. Your child will be so proud!

Help Your Child Get Ready: Week 1

Here are some activities that you and your child might enjoy.

Sizzling Synonyms!

The first time your child says, "It's hot outside," challenge him or her to come up with as many words as possible that mean the same thing as *hot*. You can try this with other weather words such as *cold*, *rainy*, or *cloudy*.

Summer Goal

Suggest that your child come up with a plan to achieve a goal by the end of the summer. For example, he or she may wish to become an expert on a favorite animal or learn to count in another language. Help him or her map out a way to be successful. Periodically, check to see how your child is progressing.

Order, Order!

Play a ranking game. Choose three related items and ask your child to put them in order. Ask him or her to explain the choice. For example, if you chose *ice cube*, *snowball*, and *frozen lake*, your child might say *small*, *medium*, and *large*; or *cold*, *colder*, *coldest*.

Sun Safety

Talk about sun safety with your child. Ask him or her to write a list of ways to stay safe in the sun. Post it in a prominent place!

These are the skills your child will be working on this week.

Math

- addition and subtraction within 10
- measure lengths
- partition shapes into equal parts
